Statement: Corona and delivery capability

In the past few days, we have been receiving more and more inquiries about the possible effects of the new corona virus (SARS-CoV-2) and its impact on our deliveries. We would therefore like to inform you about the current status.

The situation of the individual supply chains is extremely dynamic and can change daily. With this in mind, we have implemented an internal process that constantly assesses the situation.

As of 16.03.20: We currently see no direct effects on our ability to deliver at the moment. We will inform you at short notice if the situation may change.

If further information is needed, please do not hesitate to contact your contact person immediately.

Best regards
The Management
